EXPERIENCE

React / React-Native Developer — Emploitic SPA

SEPTEMBER **2022** - **PRESENT**

https://play.google.com/store/apps/developer?id=Emploitic

- **Led and Coordinated** the development of the **mobile app** using **React Native**, ensuring successful delivery and adherence to **Agile Principles .**.
- **Created and implemented** a **transformative tool** that transitioned the company's client service from manual to digital, **resulting in a $4,000 annual budget increase.**
- **Facilitated** the transition from a **rigid Legacy CMS Codebase**, which **hindered site updates**, to a Modern Stack using React/Next.js , enhancing performance, flexibility, and **enabling weekly feature additions.**
- **Implemented Dockerization** for Software Applications to improve **Portability** using **Docker .**

React-Native Developer — White Bay LTD

DECEMBER **2021** - APRIL **2022**

play.google.com/store/apps/dev?id=5009512510539627341

- **Successfully delivered** high-impact **Cross Platform Projects**, with notable achievements including the development of **"My Team Connect,"** one of our most popular initiatives.
- **Achieved a significant reduction** in average deadlines by approximately **20 days** through efficient code reuse from the mobile app to front-end projects.

Native Android Developer — Freelancer

SEPTEMBER **2015** TO APRIL **2020**

play.google.com/store/apps/dev?id=8367062324581492914

Throughout my role, I have placed a **strong emphasis** on app **architecture**, **scalability**, and **flexibility** as primary areas of focus. By strategically leveraging **Jetpack components** in conjunction with industry best practices, I have consistently enhanced the development of applications, resulting in improved **performance**, efficiency, and overall user experience.

EDUCATION

University Of Mohammed Cherif Messaadia – Algeria .

SEPTEMBER **2015** - TO SEPTEMBER **2018**
